Dear Freediver,

Thank you for booking your Discover Freediving experience with us.

The course is ideal for experiencing the joys of freediving in the safety of a heated swimming pool. It's designed for people who either want to try a new adventure or if they're not sure if they want to commit to the [PADI Freediving certification course](#).

The experience will teach you some of the basic principles of freediving, the most important safety rules and how the equipment works. You will get to feel what its like to extend your breath holding underwater. After spending some time in the shallow end getting comfortable and familiar with the equipment and the strange sensations we will head to the deep end where you get to have a swim around underwater.

Your instructor will meet you at the house at 09.30 and the course should finish around 11.00.

You can find directions below.
