

Dear Diver,

Please read this document carefully as it contains valuable information for your course.

The course:

The Advanced Open Water course will qualify you to dive to 30m, make you a better & safer diver and teach you exciting new skills. There are five 'Adventure Dives' which include a **Deep** and **Navigation** dive and 3 of the following dives:

- **Peak Performance Buoyancy or Dry Suit** – this will help you be a much more efficient diver and means that you get to see more and make your air last longer.
- **Dry Suit** - useful if you wish to dive in the UK year-round or you want to stay warmer in the water. This is mandatory in the winter months
- **Wreck** – there are several interesting wrecks at the dive site including planes, boats and helicopters
- **SMB (surface marker buoy)** – this simple yet lifesaving piece of equipment requires some practice to master. (There isn't Elearning for this section)

There are other adventure dives but these are the ones we choose due to local logistics.

Forms and eLearning

You should receive your Advanced Open Water Diver online learning code within 2 working days of booking the course. If you don't receive it then please check your spam folder before letting us know.

This eLearning includes digital medical and Liability forms. These need to be completed online and shown to your instructor at check-in on the first day. It's recommended that you save a copy of the forms on your device or email them to info@oysterdiving.com Subject "AOW Forms"

Please complete the sections that correspond to the adventure dives you are doing (above) and complete the knowledge reviews found at the end of each section.

Typically, it takes around 4-5 hours to complete the theory depending on how many sessions you break it up into. Please don't leave it until the last minute!
